CONFERENCE

2001  
an educational odyssey

[REGISTER FOR THE CONFERENCE](#)

---

 **Wednesday, April 25, 2001** 

This year, ACPE has added a day to network among your colleagues and learn about new technologies.

Join us for a "Best Ball" Golf Tournament sponsored by ACPE and [Apple Computers!](#)  
Registration fee is \$15, and space is limited to the first 24 people.

Tee off at noon!

Look for the golf registration form included with the printed conference brochure.  
Also, Product Showcases in Vendor Hospitality Suites from 4:00 p.m. - 10:00 p.m.

---

**Thursday, April 26**

**Thursday Morning Events**

8:00-9:00

**Registration and Continental Breakfast** Hosted by 

9:00-9:15

**Welcome and Introductions**  
by President Michael Lasher

9:15-10:15

**Keynote: *Better by Design***

**Special Guest:** Tom VanderArk, Executive Director, Gates Foundation

Student achievement can increase when technology access is coupled with an effective school design and supported by meaningful professional development. Hear Tom describe what the Gates Foundation is doing in the areas of professional development - at all levels - to support effective integration of educational technology.

10:15-10:45

**Break** Hosted by 

10:45-11:45

**Keynote: *The Alpha Classroom***

**Special Guest:** Dick Callahan, Gateway

The learning environment in the Information Age involves: accessing and analyzing information and applying what you have learned. Dick Callahan will speak on how different types of technologies support each of the 3 "A's." Dick has spent the last 15 years dedicated to improving the learning process for students-- first as a teacher and administrator, and now, as Vice President and General Manager of Education for Gateway Computers.

11:45-1:00

**Lunch** Hosted by 

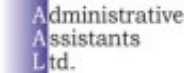

**Thursday Afternoon Breakout Sessions**

Hosted Bar Hosted by 

**6:00-8:00 Dinner**

Hosted by  and 

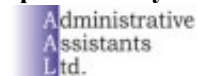

## Friday, April 27

### Friday Morning Events

7:30-8:00 **Continental Breakfast** - hosted by 

8:00-9:30 **Keynote: *Living on the Future Edge***

**Keynote sponsored by:**

Oregon Dept.

of Ed.

9:30-10:00 **Break**

**Special Guest: Ian Jukes**  
This presentation traces the continuum of development from the building-based computers of yesterday to the desktop devices of today. By explaining the significance of four trends (Moore's Law, the emergence of the Internet, the Law of the Photon, and technological convergence) this presentation challenges your fundamental assumptions about new technology. Stand back from your assumptions and consider how this will change the classroom.

### Friday Breakout Sessions (*Rooms to be determined*)

STRANDS:	MANAGEMENT	SUPPORT	NETWORK/ TECHNICAL	WEB/ TECHNICAL	DISTRIBUTED LEARNING
10:00 - 11:00	Leading Change	Measuring Quality of Technical Services	Wireless: Hype or Reality?	OpenSource Software	Video Equipment Technical Support Issues*
